OUR PRODUCT LINES

[MORE ON PDF](#)

MILLING

YG-1 Milling tools are recognized to be one of the most cost efficient cutting tools in the world, satisfying many users by providing a mass increase in productivity. It is also well known for its outstanding performances and its wide variety of products. Making it possible to cover a vast range of work materials and also numerous applications.

DRILLING

YG-1 Drilling tools are well known for its low tolerance and high technology, continuously impressing various manufacturers around the world. Its advance designed geometry brings out extraordinary performances, creating a longer tool life with outstanding productivity. Also a variety of size and shapes are available for multiple applications.

THREADING

YG-1 Threading tools are highly acclaimed of its excellent quality and unique design, constantly remaining as the No.1 choice. Maintained by YG-1's tight quality control its unique geometry prevents over-feeding and also thin threading problems, achieving a shorter cycle time and higher productivity.
